

3000 ABYSSINIANS KILLED BY SOMALIS

ARMY OF KING MENELEK AL- MOST ANNIHILATED.

Terrible Tale of Bloodshed—Only Sixty-Eight Men of a force of Three Thousand Return from an Expedition Into the Somali Country—Commander-in-Chief Killed.

London, Oct. 14.—J. Bennett Stanford, who has just returned from taking part in an expedition to Somaliland, brings news of the annihilation, at the end of June, of an Abyssinian army of 3,000 men under the control of the famous Gen. Ras Mackonnen, of which number only sixty-nine men escaped.

Mr. Stanford, to a representative of The Associated Press, said:

"While in the interior we came across a powerful Somali chief who had just returned from the fight. He told me that the Abyssinian force had been raiding down the Webbe Shebeyli river, nearly as far as the forty-fifth parallel. The Somalis then overwhelmed them with large numbers, allowing sixty men to go back with the news of the defeat. Ras Mackonnen was killed during the battle. The latest news from Harar was that an Abyssinian army was being dispatched against the somalis, who are eagerly anticipating another fight."

DEFICIT IN WORLD'S CROPS.

Summary of the European Reports Sent to Statistician Hyde.

Washington, Oct. 14.—The monthly report of the agricultural department on the European crop situation, summarizing the reports of European correspondents to Statistician Hyde, was made public Wednesday. Following is an abstract:

"Recent information, while it may in some cases modify the crop estimates for particular countries, does not essentially change the situation as regards the deficiency in the principal cereal crops of Europe. The outlook for wheat in the Australian colonies continues good, but the prospects in the Argentine republic are somewhat less bright, owing to drought and frosts. Accounts from India are quite favorable."

Against the net deficit of approximately 203,000,000 bushels of wheat it is estimated that there is a residue of from 145,000,000 to 170,000,000 bushels out of the former crop, leaving in round numbers from 58,000,000 down to 33,000,000 bushels as the quantity by which it would be necessary to curtail consumption if these estimates should prove to be correct.

TREATY FOR ARBITRATION.

Peace Pact Between the United States and Great Britain.

London, Oct. 14.—The Daily News says:

"There is a good prospect of the speedy conclusion of a general arbitration treaty between Great Britain and the United States. We have reason to believe that President McKinley will propose a clause in the treaty providing that before any subject is finally referred to the court of arbitration such reference shall be approved by the queen on one hand and by the American senate on the other. It is expected that such a proviso will induce the senate to ratify the treaty, and it is improbable that any objection will be raised on this side."

Train Goes Into the Ditch.

Rockford, Ill., Oct. 14.—The passengers on the Chicago Great Western railway train due to pass through Byron at 10:46 Wednesday morning had a narrow escape. A short distance west of the village, while the train was running at the rate of fifty miles an hour, the rails spread and the entire train was thrown into the ditch. Many passengers were bruised, but none seriously hurt.

Big Fire at Coffeen, Ill.

TALKS FOR LUETGERT.

Attorney Phalen Addresses the Jury in Defense of the Accused.

Chicago, Oct. 14.—All day Wednesday Attorney Phalen talked for the life of Adolph L. Luetgert. The court room was crowded and hundreds were turned away, not being permitted to go on the floor of the criminal court building where the trial is in progress.

Mr. Phalen resumed his argument today and will cover every phase of the case before he stops. Yesterday he attacked the character of the state's witnesses and offered explanation of the conduct of the prisoner during the days immediately preceding his arrest last May.

The subject of corpus delicti was made the base of his first attack on the state's case. He said the supreme court of this state has held that no man can be deprived of his life on a charge of murder unless the dead body can be produced. Without it, he said, the corpus delicti could be established and he read a report of the supreme court bearing out his assertion. He has not reached the subject of motive, which is regarded as the most fragile part of the state's case.

TROUBLE OVER SILVER.

Serious Dissension Reported in the British Government.

Paris, Oct. 14.—It is rumored that the answer which the India government has forwarded to the British cabinet declining to reopen its mints under an agreement with France and the United States is causing considerable difficulty in British government circles. A majority of the cabinet is disinclined to override the opinion of its India advisers on a question which principally affects India, but several members of the cabinet feel that the government is too far committed—not so much vis-a-vis other governments as vis-a-vis a large number of its own supporters—to the policy of an international settlement of the currency question to withdraw. At the present moment it is impossible to foretell the outcome of the differences of opinion, but the resignation of at least two influential cabinet ministers is not improbable.

London, Oct. 14.—The Times announces that a letter is being signed by a majority of the leading men of the city expressing their grave objections to any movement by the government in the direction of bimetallism, and adds: "As the government's answer to American commissioners is expected to be given within a few days, there is no time to be lost."

RAILROADS IN 1896 COST 2000 LIVES

REPORT OF INTERSTATE COM- MERCE COMMISSION.

Vast Wealth is Invested—Compensation of Employees Is Over Sixty Per Cent. of the Operating Expenses—Nearly Two Thousand Trainmen Killed in 1896

Washington, Oct. 14.—The ninth statistical report of the interstate commerce commission for the year ended June 30, 1896, gives interesting information concerning the mileage, equipment, number of employees, capitalization and valuation, accidents and earnings and expenses of railways in the United States for the year named.

One hundred and fifty roads, representing 30,475 miles of operated mileage, were in the hands of receivers on June 30, 1896, a decrease of eighteen from the previous year.

The capital stock represented by the railways controlled by receivers was \$742,597,698, and the funded debt was \$999,733,766.

The total railway mileage on June 30, 1896, was 182,776, an increase of 2,119 for the year, Georgia showing the largest increase, viz., 233 miles.

The number of locomotives in service was 35,950 and of cars of all classes 1,297,649, an increase of 251 locomotives and 27,088 cars.

Of the total cars and locomotives 448,854 were fitted with train brakes and 545,583 with automatic couplers. The number of freight locomotives fitted with automatic couplers was 3,373 out of a total of 20,351, and the cars in freight service fitted with train brakes was 379,058, out of a total of 1,221,887. An interesting feature of the report is a summary showing the amount of compensation paid to the railway employees of the United States, who aggregated \$26,620. Their aggregate compensation amounted to over 60 per cent of the total operating expenses of all railways, a slight decrease from the preceding year.

The amount of railway capital, it is shown, was \$10,566,865,771, which, assigned on a mileage basis, shows a capital of \$59,610 per mile of line, and if current liabilities be included as part of the capital, \$63,068 per mile of line. The amount of capital stock was \$5,226,527,269, of which \$969,956,692 was preferred.

A fraction of over 70 per cent of the capital stock paid no dividends. The total dividends amounted to \$87,603,371.

Passengers carried during the year numbered 511,772,737, an increase of over 4,000,000 compared with the previous year, which, however, showed a decrease of 33,266,837 as compared with 1894.

Freight tonnage amounted to 765,891,385, the largest ever reported for railways in this country, and an increase of nearly 70,000,000.

Gross earnings amounted to \$1,150,169,376, an increase of nearly \$75,000,000, resulting in a net income of over \$33,000,000 larger than the previous year. Nearly 1,900 employees were killed and almost 30,000 injured during the year, an increase of fifty in those killed and over 4,000 in the number injured.

NEW CITY SCANDAL AT WEST SUPERIOR

TOWN OFFICIALS CHARGED WITH EMBEZZLEMENT.

Investigations Made By the Citizens' Reform League Result in Sensational Disclosures—Wholesale Election Frauds Said to Have Been Perpetrated to Cover Crookedness.

West Superior, Wis., Oct. 14.—A sensational state of affairs has been developed by the investigations of the Citizens' Reform League and the district attorney into the affairs of the town of Superior. As a result of the more recent disclosures Court Commissioner Kellogg Wednesday signed criminal warrants for the arrest of the entire town board of supervisors, consisting of Frank Desmond, chairman and member of the county board, and Martin Kernstad and John Matthews, members. They are charged with the embezzlement and fraudulent conversion to their own uses of a certain town order for \$56.25 issued last April.

This is the fifth lot of warrants issued in connection with the town of Superior affairs. The new warrants are sworn out by Walter H. Carter, who caused County Clerk Anderson's arrest last year just as he was starting for St. Louis as a delegate to the Republican national convention. It is alleged by the people who are turning over the affairs of the town that the most sensational charges are yet to come to light. There is a story of election frauds, that voters were taken from this city, fifty from a ward, and colonized in the town of Superior for ten days prior to election, and that the town officials bought them bedding and charged it to the town.

NEW FEVER DEATH RECORD.

Nine Patients Succumb to the Plague in One Day at New Orleans.

New Orleans, La., Oct. 14.—Nine deaths were reported up to the closing of the official record Wednesday, with thirty-one new cases. Thus far the previous highest mortality had been six deaths and the fever killed that number only on one day. This day's developments bring the total deaths here to 82, with a total number of 685 cases.

Dr. Guiteras has left Galveston for St. Louis, having received orders to that effect from Surgeon-General Wymann.

Reports from Edwards show six cases and one death. One death and seven new cases are reported at Scranton. A new case developed at Nitta Yuma, Miss., and Biloxi, Miss., came in with the heavy report of 17 new cases but no deaths. The fever has asserted itself at Wagar, fifty-five miles from Mobile, where there are sixteen cases and one death Wednesday. Mobile had but seven cases and Magazine Point reported six cases and one death.

Federation Plan Blocked.

Peoria, Ill., Oct. 14.—The efforts of the leaders of some of the railway brotherhoods to bring about federation of the orders seems to have been unavailing. At the conclusion of the conference Wednesday P. H. Morrissey grand chief of the Brotherhood of Railway Trainmen, said that negotiations looking to federation were off for the present. He said that did not mean, however, that such negotiations would not be resumed. It is strongly suspected that Chief Arthur, of the Brotherhood of Engineers, by failing to cooperate, blocked the plans for federation.

Say the Bond Was Altered.

Omaha, Neb., Oct. 14.—The Bartley bondsmen have discovered a new line of defense. The assertion is positively made that the bond has been tampered with. Upon its face Bartley's bond shows that it was filed on Jan. 3, 1895. But the bondsmen maintain that the bond was really filed on Jan. 9, 1895, and that the indorsement showed this alleged fact, but that the "9" was erased and in its place was substituted the "3." Apparently this figure is in a different hand and in different ink from the remainder of the indorsement.

Trainery Asked by Austria.

Harrisburg, Pa., Oct. 14.—Governor Hastings has received a letter from Secretary Sherman, stating that the Austrian minister at Washington has filed a communication with the department of state claiming there was a violation of rights of Austrian subjects in the firing on the mob at Lattimer, Pa., when a score of miners were killed. Secretary Sherman requests the facts and status of affairs in relation to these cases. Governor Hastings has referred the communication to Sheriff Martin and General Gobin, with the request that they enlighten Secretary Sherman as early as possible.

Yukon a New Territory.

San Francisco, Oct. 14.—If plans now under way prove successful the great Yukon Valley, with its wealth of gold, will be a separate territory, under the name of Lincoln, and Eli Gage of Chicago, the son of the secretary of the treasury, will be the first governor. It is alleged that the lax administration of law in Alaska opens the way to all sorts of crime. It is thought that with a separate governor and officials American interests in the great gold region can be better protected.

EPISCOPALIANS IN BUFFALO

Brotherhood of St. Andrew in Convention in That City.

Buffalo, N. Y., Oct. 14.—Nearly 1,000 churchmen, both clerical and lay, are here to attend the first international convention of the Brotherhood of St. Andrew. Representatives are present from the national councils of the brotherhood in Canada.

The national council met in executive session Wednesday morning at the Geneva hotel and put in final form its annual report to the convention. It is known that the council is able to report a satisfactory growth of the brotherhood and a steady increase in the number of chapters. At the present time the brotherhood has chapters in more than two-thirds of the parishes of the protestant episcopal church in the United States.

As is customary, the convention has been preceded by nine hours of devotion and instruction. This service was held in the afternoon in St. Paul's cathedral under the direction of Canon Gore of London, England.

A reception was tendered Canon Gore and the local bishop of Rochester by Bishop Walker at the see house in Delaware avenue at night, which was attended by all the bishops and other clergy in the city. There was also an informal reception of all the delegates at concert hall.

John H. Holliday of Indianapolis addressed the synod in behalf of McCormick Seminary, in Chicago. The school had been supported by the McCormick family, who this year will give \$5,000, but they feel that the church should assist to some extent.

The indications are that these conventions will be the largest ever held by the Christian church in America.

The society during the missionary year ending Sept. 30 has received from contributions \$62,600.81, or \$3,000 more than during any previous year. The Foreign Missionary Society meets Monday and Tuesday, and the American Society Tuesday to Friday inclusive. Oshkosh, Oct. 14.—[Special]—There has been so much illegal fishing here of late that Gov. Scofield issued orders last night for all game wardens in this vicinity to report here at midnight for the purpose of making a general raid on the fishermen. Gov. STATE BANKERS IN SESSION.

Seventh Annual Convention Formally Opened at Peoria, Ill.

Peoria, Ill., Oct. 14.—The opening session of the seventh annual convention of the Illinois Bankers' association Wednesday was attended by 120 of the leading business men and financiers of the state. The morning session was devoted to preliminary business and the address of welcome by O. J. Bailey and the response by President Frank Elliott, who followed with his annual address.

Currency reform and reform in general banking business was the theme of the several addresses and the discussions and resolutions bearing on that subject were adopted. The executive council reported that it indorsed the recommendations as to the uniform laws reported to and adopted by the National association at Detroit. It was discussed and finally decided to ask the next legislature to enact uniform laws relating to money affairs. Frank W. Tracey of Springfield said they were the finest codification of commercial laws that had ever been drafted.

President Elliott's report expressed satisfaction in the change in business and industrial conditions which have been effected since the last convention held at Springfield a year ago. He presented statistics incident thereto and referred with satisfaction to the brightening prospects. Mr. Elliott said:

"The great question as regards our monetary standard was decided, I trust, when last November our people expressed their preference for the gold standard. That the decision was wise is unquestionable. The fact has already been demonstrated in the conditions which now exist and will continue to be proven and emphasized as the time goes on. We feel it in the renewed courage with which business enterprises are undertaken and pursued and in the solidification of values and the consciousness that we are building upon a foundation which is firm and unchanging."

"If we keep the fact constantly in view and make it clearly apparent that whatever may be done with our currency and coinage we are determined as a nation to abide by one standard, and that the gold standard, we will not only give assurance to our people, which will induce more extensive investments and increasing enterprise, but will establish among the nations a credit and beget a confidence in us which will result in benefits which can hardly be estimated."

Mr. Elliott said the tendency of the other nations of the world was toward the gold standard. He recounted at length the present condition and opportunities in industrial lines and urged the bankers to make good use of the opportunities now before them. Today officers will be chosen, papers read, and the convention will close with a banquet in the evening. Senator Mason will deliver the principal address.

TASTED ARMY LIFE IN 100 DAY SQUAD

REV. W. F. BROWN'S WAR-TIME
RECOLLECTIONS.

Former Janesville Pastor Enlisted
From College—His Diary Preserves
an interesting Account of a "Mess"
of Beloit Boys Who Went to the
Front.

Rev. W. F. Brown, formerly of this city, was one of the many who believed that the unity of states should be preserved, peaceably, if possible, by force if necessary, and was one of a party of Beloit college boys who responded to the call for "one hundred day men." Writing for the college journal he depicts in a vivid and interesting manner the scenes of those terrible days as they presented themselves to a jubilant boy who thought g in to war was the best kind of sport. The following reminiscences, beginning when the party left Alton, Ill., in June, 1864, and continuing until being discharged at Camp Randall, Madison, Wis., are taken from his private diary, and will be found of much interest to all.

From Alton we steamed down the Mississippi and reached Memphis Sunday morning, June 19, 1864, temperature 125 degrees F. At 11 a. m. having strapped on knapsacks and shouldered arms, we marched through deep dust a long way round to a camp ground about two miles from the city limits. In wooden clothes and carrying about 60 pounds each, all found it hot indeed, but got there. Jack Lewis even carried Fitch's gun along with his own. On arriving, parched with thirst, several of us hunted up an old deserted well, buckled straps together and let down a canteen through weeds and broken curb to the cool water 20 feet below. When it was drawn up gurgling full and put to our dusty lips, then we learned the real meaning of the word, nectar.

The first night all slept on the ground without covering. Camp Ray, June 20, 1864—Our mess consists of the Beloit college boys, Lyman Winslow of '65, Fitch, Lewis, Newhall, Fred Curtis and Brown of '66 Porter and Smith of '67 A. W. Kimball and F. Bicknell. We must do our own cooking for awhile and all take turns. As chief of mess I have drawn a piece of pork alias "sawbilly," 1½ pints coffee, 1½ peck of potatoes, two-third pint of salt, quarter bar of soap and twenty of the six inch square crackers called hard-tack.

21st. After the usual drill we made of rubber blankets, etc., a mess tent and put up the sign, "Eagle Moss. No smoking allowed." For today's rations we have 1½ pints of coffee and the same of sugar, two-thirds pint of vinegar and as much molasses, one quart rice, one quart of beans, one quarter bar of soap, one candle, 20 hard-tack and saw belly sufficient. Fitch, Kimball and I are the first cooks. During the night came a thunder storm and a small river under our blankets. Good-natured Kimball and others turned out amid the down-pour in the earliest possible costume and escaped a shallow trench about the tent. Next day several of us were sent to the city with a commissary wagon, which we loaded with hay bales and new tents. Managed to get lemons, 25 cents; one-half pound white sugar, 15 cents and a lump of tea, so our mess had a treat.

June 24—Sixty having volunteered for picket duty, we took 30 cartridges apiece with three days' rations of hard tack, marched a mile or two from camp and were then distributed in stations about 30 rods apart, three men at a station. We stood guard day and night until relieved, each man taking his turn of two hours on guard and four off. It was said that those whose property we were guarding would not give or even sell us anything. Feeling ill, I tried the matronly colored cook of the nearest secession mansion and with kind words and a dime got a refreshing cup of tea. That evening Corporal F. went on the same errand. Reported that he marched up to the front piazza where the Atkins family were sitting, asked for a drink of water and they merely pointed him to the well. Said he saw unhealthy symptoms of their unchaining a savage looking dog, so he left. In the still night during my guard from 11 till 1, Comrade Shumaker went towards the same house, jayhawking. Pretty soon there was a loud woot! woot! and Shumaker, rushing back empty handed with that dog after him, jumped the fence just barely in time. Next morning I visited that house again and made for the cook a small pencil sketch of her little bare

legged grandson. After that nothing was too good and they gave me the best the house afforded for breakfast. A colored lad called out, "Your relief just done gone by," so I hurried back to my station, convinced that those negroes were loyal. Sunday morning Chaplain Baisdell preached. We have excellent evening prayer meetings, and what some prize for more now, a company cook.

July 1.—Our rations for two days' picket duty are a loaf of bread each, with a little sugar and coffee. On this picket one of us convinced a secession that it was milking time and filled a tin cup. For this, his only act of foraging, he has since most sincerely repented not. We had to sleep on the ground and be waked by falling rain. A sketch of that post shows Corporal Kendall sitting disconsolately on the wet road side with his feet in a ditch. The romance of war has vanished. Southern heat is steady and stifling.

Our chief danger of course was from short rations. The ditto hostile danger was usually the southern mosquito, whose poisonous stab drew more northern blood than southern bayonets did.

Sunday, July 10, occurred the first camp funeral. It was of a Mr. Small, Co. F. Before night army mules tramped through the yellow clay of his grave.

Monday we went sixty miles east from Memphis on train gaur to La Grange. Last week three Iowa soldiers were shot at by guerrillas on this road. We lay at full length on the roof of our freight car, both sides of the ridge, with our guns leveled across it ready to fire either side. LaGrange must have been a beautiful town before both armies battered it. Now, however, the churches are in ruins and used for stables, many fine houses have been burned or blown up, most of the inhabitants are gone and the scene is one of desolation.

The heat which rose to 132 degrees and some special exposure brought me to the hospital sick with fever. A box came from Beloit and on waking one morning I found under my head a white pillow marked with the name of my mother. One must be sick in the army to appreciate little comforts. Aug. 6 Sergeant Sherill died and Bushnell Aug. 12 and W. H. Shumaker, in the next cot to mine, Aug. 13. Sunday, Aug. 21, we sick boys were waked by the boom of cannon. What's that! Forrest has attacked Memphis with his cavalry and artillery and our boys have gone out. I managed to dress and found that my gun seemed to weigh several hundred pounds, so started without it towards the firing. The 40th regiment was at the extreme front and under fire about three-quarters of an hour. A shell burst in a stump behind Co. B, and one of its fragments slightly wounded a lieutenant, doing no other damage. Forrest retreated, our boys marched back, and some of them found me on the road, they say, and brought me in.

On board the hospital steamer, Silver Wave, Sept. 9, 1864—We left Camp Ray and Memphis yesterday and started north. Our boat is crowded with more than 2,000 invalid soldiers. A few miles below Fort Pillow we stopped to bury a boy of the 39th, who died last night. At Cairo we buried four more. Lying on the bare upper deck back of the smoke pipes, sick with fever, partly protected by my blanket from dew and falling slanders, what a joy it gives me at night to see that we are pointed towards the North star and are actually going home.

Sept. 14—At Alton, Ill., we convalescents were packed in freight cars, as many as could lie in each, stretched crosswise on the hard floor. At every bang of the rough cars our fevered heads felt ready to split. Water was scarce on the way and welcome scarcer. We reached Chicago on the evening of the 15th, when our term expired, were kept at Camp Randall, Madison, several days and then duly discharged. The boys of the 40th came home, some all the stronger, one to die on the day he got home and many to feel the ill effects of that summer for several years; but all of them no doubt better and wiser for their hundred days' service.

IMPROVING ITS YARDS

Northwestern Company Making Extensive
Changes at Beloit

Janesville will not get the benefit of the 7:30 morning train to Chicago over the C. M. & St. P. if Beloit has a straight tip. It has been reported that the train would run to Janesville, hereafter, but this report is denied in a Beloit dispatch to the Sentinel, which says that Beloit will continue to be the terminus.

The Chicago & North-eastern road is making extensive improvements to its yard in Beloit adding new switch tracks, putting in new water stations and removing all the old and unnecessary buildings. The company will lay a brick pavement in front of its passenger station.

A BIG SLASH IN FARES

The Milwaukee & St. Paul Road Cuts
Fares From St. Paul to New York.

The Chicago, Milwaukee & St. Paul railroad yesterday made a sensational cut in the second class passenger rates from St. Paul to New York via Chicago, in connection with East-bound steamship business. It took \$10.50 off the rate. The action was taken to meet "Soo" line competition. The St. Paul will meet whatever rates the Soo line may make. The cut will undoubtedly be met by the other Chicago St. Paul roads.

LITTLE BOY IS LEFT IN UTTER DARKNESS

PITIFUL DETAILS OF JOHNNIE
SINGSAM'S CASE.

A Rugged Youngster Nine Years of
Age, Full of Life and Spirits, He is
Suddenly Stricken With Blindness
and Soon After Loses His Mother
From Consumption.

Little Johnnie Singsam, nine years old was brought out to the State School for the Blind from Milwaukee last Saturday. Johnnie appeals to everyone's sympathy, his case being peculiarly sad. A rugged little German lad, with bright eyes, interested in his school, his sight suddenly left him three years ago as the result of sickness and since that time he has groped around in total darkness. His mother, working by the day to support the family was stricken with consumption. Realizing that the end could not be far away and thinking with all a mother's loving solicitude of her little blind boy she found the future full of forebodings.

"If I could only find a home for Johnnie" she said, "I could die in peace."

A teacher that knew the family interested himself in the case and when the letter came saying that Johnnie could have a good home and the benefits of an education at the state school without expense the poor mother with a smile of satisfaction on her wan face said "Thank God. Now I am happy."

Johnnie with a dozen other children, is in the kindergarten class. Everything is new and strange to him. When a teacher takes his hand he says:

"Who are you? Are you blind? Will I always be blind? My brother can see, why can't I see?" And so the little mind is trying to solve the great mystery of his misfortune.

As he becomes accustomed to his surroundings and occupied with his work and play, life will take a new experience and out of the darkness will come some rays of light, and as his mind develops the eyes of the soul will penetrate some of the mysteries that are now so perplexing.

FOUND GUILTY OF SHOOTING

William Houston Convicted on the Charge
of Puncturing Officer Tully.

William Houston and Charles Phillips who engaged Beloit officers in a running pistol fight near the willows got short shift in Winnebago county, Ill. It did not take the jury long to weigh the evidence against Houston. After being out half an hour they returned a verdict of guilty.

The term for the offense of which Houston has been convicted is from one to fourteen years.

Houston told a good story for Phillips. He swore positively that Phillips did not draw a gun in that running fight with the Beloit authorities, that Phillips did not fire a shot, and that he was not implicated in the Tully shooting in any way.

Local horsemen need not worry on account of the popularity of the bicycle.

Adams presented some figures on the usage of the horse, showing that in the face of many statements regarding the passage of that animal, no decrease in his use was found. On the contrary Wisconsin, Kentucky, Minnesota, Nebraska, Illinois and Massachusetts show a total increase of 102,393 horses in actual service since 1890. Indiana reported an increase of 9,612 since 1895.

MORE SECOND TRACK LAID

The Chicago & Northwestern Getting
Ready For Work Near Baraboo.

The C. & N. W. has secured the right of way for a double track from Baraboo to Kirkwood, and is adding steadily to the amount of double track between St. Paul and Chicago. Although the distance from Baraboo to Kirkwood is only about three miles, the work and its results mean a great deal. The route, on the south side of the river, does away with half a dozen bridges which span the Baraboo river, besides dispensing with much curvature in the tracks.

The Marinette Eagle of Tuesday says: "A Menominee Herald reporter was shown a letter this morning from one of the Janesville stockholders of the shoe factory soon to be removed to that city, in which it is stated that a certain capitalist of Janesville said he would take \$40,000 or even \$50,000 worth of stock if the factory was allowed to remain there, but was told that he was too late. The Janesville concern is bound to come to Menominee."

Festivals and Parties...

Will awaken in the feminine heart longing for an evening gown. We never had such a fine lot of silks, velvets, accordion chiffon, in lovely effects; mousseline de sole puffing, a dreamy creation, lace nets and heavy embroidered all overs in cream, white and two tone; a world of trimmings; exquisite things in jeweled bands, applique novelties, rich embroidered bands in white and cream; laces, a perfectly immense line, the very latest novelties, nothing lacking. Hardly a thing that we cannot supply. There is little excuse for any woman to go away from this city for dress goods and pay bigger prices. The reason advanced by some for trading in other cities is a weak one, for we can suggest hundreds of rich combinations for dresses, so that no two suits need be the same.

Besides all the newest things in lace curtains, we show beautiful new heavy curtains in Tapestry, Brocatelles, Velours, Bagdads, Chenille, Roman, &c. THE OVERFLOW OF LOCAL NEWS.

WHAT IS YOUR TRADE?

Each Trade or Occupation Has Its Special Disease.

It is well known among medical men that certain diseases are more readily developed in certain occupations than in others. That each occupation has its attendant physical weakness. Engineers, railroad men and similar occupations suffer mostly from kidney troubles and men who are often exposed to the weather suffer from rheumatism, while clerks and professional men, in fact the army of people whose business keeps them indoors are oftentimes great sufferers from piles and constipation. In this connection the following letter is of interest to people whose occupation will not allow sufficient outdoor exercise.

Mr. A. F. Calhoun, notary public and jeweler and watchmaker of Circleville, W. Va., writes as follows:

I had been a severe sufferer from piles for years and had tried many remedies with but little benefit, when about three years ago I saw the Pyramid Pile Cure advertised and sent for it.

I was badly afflicted when I got it, but after only two applications the piles disappeared and from that day to this I have never felt a symptom of the disease.

I feel that I cannot recommend them too highly to sufferers from piles.

The Pyramid Pile Cure is free from cocaine, opium or any mineral poison, absolutely safe, pleasant and painless; sold by druggists at 50 cents per package. If there is any constipation the Pyramid Pills should be used with the pile cure. The pills are 25 cents per package.

Any druggist will tell you that the Pyramid is the best known and most successful and popular pile cure ever placed on the market and its reputation as a safe and radical cure has only resulted from the personal recommendation of people who have been cured of this distressing ailment.

Send to the Pyramid Co., Albion, Mich., for valuable little book on cause and cure of piles.

CENTER LOSES A STRONG MAN

William H. Dean Had Long Been a Leader in Church and Schools.

Center, Oct. 14.—The funeral of the late Wm. H. Dean was held Monday afternoon, at the Christian church, Rev. I. K. Spencer, officiating. Mr. Dean was sixty-three years old at the time of his death. He was born in Canfield, Ohio, Oct. 12, 1834, died, Oct. 10, 1897. He received a most liberal education in Ohio, and at the age of 16 years united with the Christian church at Canfield. In 1854 he removed to Wisconsin and soon after located in Center, Rock Co., where his abilities as an educator, and organizer, were quickly appreciated, and he at once entered into active work to help in the church and schools. For almost forty years he has been a leader in the Christian church, not only in Center, but throughout Wisconsin, wherever there was a congregation of that denomination. As a man, he was most highly respected by all with whom he came in contact, and Rock Co. by his death loses one of its best known pioneers. He had been in failing health for some years past, but the immediate cause of death was paralysis. He leaves a widow, six sons and three daughters. The pall bearers were Frank, Samuel, Bruce and Pearl, four sons of the deceased. Center received its share of the late welcome rain, and corn husking is being rushed. All grain is threshed and the yield has been fair. Tobacco is curing out in extremely fine shape, and the prospect is good that the "prosperity boom" has struck us. Long Bros. & O'Brien are running two engine crews, one with the thrasher and the other with the clover huller; they report business good. Fred Vankirk offers his fine property for sale, and is anxious to reduce stock in some lines. He is making extremely low prices in the boot and shoe line of winter goods. A young daughter lately arrived at the home of Walter Poynter and wife. J. Austin Dean, an old resident of Center, now living in Chicago, spent several days here the past week. Minor Campbell, a young son of Mrs. F. Campbell, fell from a gate last Sunday, breaking one arm, and badly spraining the other. The lumber is on the ground to replace the barn of Fred Nightingale's that was destroyed by lightning September 1st. J. Langdon of Janesville is the builder, and Fred will have a "raising" next week. Miss Daisy Spencer is still confined to the house by her illness, her improvement being very slow.

"I can't see how any family lives without Chamberlain's Colic, Cholera and Diarrhoea Remedy," says J. R. Adams, a well known druggist, of Geneva, Al., in a letter inquiring the price of a dozen bottles, that he might not only have it for use in his own family, but supply it to his neighbors. The reason some people get along without it, is because they do not know its value, and what a vast amount of suffering it will save. Wherever it becomes known and used, it is recognized as a necessity, for it is the only remedy that can always be depended upon for bowel complaints, both for children and adults. For sale by C. D. Stevens, Pharmacist, corner Main and Milwaukee streets.

The Washing that's Easy

may be ruinous, perhaps. Plenty of things will save work in washing—if you don't mind more or less harm to the clothes. But if you do mind it, and want to be sure that you're not running any risk—then get Pearlina. Pearlina has been proved, over and over again, to be absolutely harmless. It saves more

drudgery, in washing clothes or cleaning house, than any other thing that's safe to use. You can't afford to use anything that's doubtful.

Send it Back. Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearlina." IT'S FALSE—Pearlina is never peddled, and if your grocer sends you something in place of Pearlina, be honest—send it back.

1870—Hurricane devastated Cuba, 2,000 deaths, the disaster added to the horrors of the fierce civil war then raging on the island.

TOO TRANSPARENT.

The Milwaukee Journal, with a spirit of venom, for which the democratic press is noted, has devoted considerable time and space during the past six weeks to an effort to disrupt the republican party. After playing football around the state with Mr. LaFollette, it now turns its vile of bile upon the governor and the state board of control, using as a pretext its abnormal interest in the welfare of the state institutions.

So far as Mr. LaFollette is concerned that gentleman will doubtless weather the storm of commendation, advice, and criticism, that has fermented in the brain and found utterance in the column of the Journal.

It is just possible that Governor Scofield and the state board of control may also survive the shock, and it is more than probable that the republican party will continue to exist.

What's the matter with the Milwaukee Journal?

How long since was it appointed guardian of the state institution?

Is the defunct party that the Journal represents, proud of the four year's record in office?

The matter with the Journal is that it is drifting around aimlessly like a man without a party. The conditions are favorable to spasms of virtue. The democratic party that was once championed by the Journal is so hopelessly demoralized that there is nothing left to reform and with pure and disinterested benevolence it enters the republican fold as the champion of moral and political renovation. There is nothing small about the Journal, so it does not hesitate to commence its crusade on the first officer of the state and criticize him for daring to confer with the board which he appointed and for whose acts he is responsible, concerning the management of the state institutions. What a crime that is! Who but a republican governor would have the audacity to commit it?

The president of the state board of control, acting for the board and in compliance with law communicates with a superintendent his wishes for certain appointments to effect more efficient service; and the Journal has another spasm, and writhing in convulsions talks about liars and other calamities. To its magnified vision the institution of the state, become hot beds of moral and political corruption.

For the enlightenment of this sensitive newspaper that seeks to sow the seeds of discord in the ranks of the republican party, The Gazette will state that it expresses press and party sentiment throughout the state in saying that the efforts of the Milwaukee Journal are altogether too transparent. The republican party enjoys the confidence of the commonwealth of Wisconsin, as well as the confidence of the nation, and it will be some time before either the state or the nation entrusts its welfare to the management of a party controlled by Bryan and fanaticism. If the Journal will take a day off and seriously consider the question, "Where Am I At?" it may find plenty of work to do on its own dung hill. The state institutions and all other public interests will be looked after in the interim.

"Gold is on its way to New York and the tide of domestic manufacturing interests rises higher each day. The railroads are blocked up with the crush of business all along the line," says the New York Journal, the organ of free silver democracy. Such talk doesn't sound much like the calamity howling of eight months ago.

Bryan will not be available as a candidate in 1900. The \$1500 installments that he collects of poor folks

whom he "works in the name of suffering and oppressed humanity" will make him a plutocrat before many years have rolled by.

According to the new census Greece has about the same population as Indiana but a contemporary points out the fact that Indiana would know better than to jump on Turkey with a half organized army of state militia.

The currency and tariff issues have been absolutely tabooed by Tammany managers. Political mud-throwing is the only entertainment permitted on their side of the campaign this year.

The Ohio democratic managers continue to maintain a very rigid quarantine against Towne, Bryan, and all other free-silver-orators

One of the oldest women teachers in the public schools of Portland, Ore., has the Klondike fever and proposes going northward. By the Leader's location in Janesville. The sales show it. The crowds of purchasers each day is evidence that the public is realizing the difference in the purchasing power of a dollar to what the same coin bought before the Leader's opening in the city. It is really wonderful what a dollar will buy. You can't really tell the full extent of its power until you visit the Leader. Merchandise of all kinds never sold so cheap as now in the city. No store ever handled the high class of goods at the same price the Leader does; a veritable hurricane to high prices in every line. The sales show the business. Sixty-five stoves and ranges sold the past week. Remarkable, you think, but the prices and makes did it. Sunshine and Acorn Stoves. Thirty-two chamber sets sold the past week; prices did it. Twenty-nine complete sets of decorated dishes sold the past week; prices did it. Eleven trunks sold the past week; half prices did it.

ASKED BY HIS FLOCK TO REFUSE CALL

EAU CLAIRE BAPTISTS URGE
REV. KEMPTON.

Five Hundred Members of the Congregation Join in a Memorial Asking Him to Decline the Call to Janesville—Definite Answer is Promised This Evening.

Eau Claire Baptists are loath to lose Rev. Arthur C. Kempton. The news that he had been called to Janesville resulted in a meeting of the congregation and the adoption of this memorial:

Inasmuch as we have heard that our pastor is considering the advisability of accepting a call to another field, we, the members of the church and congregation, in mass meeting assembled, wish to give expression to our earnest and unanimous desire that he remain with us as our pastor.

We are impelled to this for the following reasons: For three years and more he has been our loved and loving pastor and has led us forward from victory to victory, out of financial difficulties, out of spiritual lethargy, always guiding us to a noble life. He has led us beside the still waters and has shown us the green pastures, where the Good Shepherd has fed us with spiritual food. He has shown great boldness in setting forth the word of life, not shunning to declare the whole counsel of God. His words have, by the power of the Holy Spirit, brought conviction to the unsaved, and with great tact and grace he has guided many a seeking heart to find the Saviour precious to them. His sermons have been masterly efforts as is shown by the large congregations that have gathered weekly to hear the truth.

How grandly he rose to the situation when he first came amongst us; at that time there was a debt hanging over us of nearly a thousand dollars, which was soon wiped out. Then came the great work of bringing to a most successful conclusion the work on the east side which has been growing for many years, and all of which is now compressed into that one word, "Bethel." The beautiful church edifice on University Hill, representing about \$3,000, dedicated free of debt, will stand as a proof of our pastor's wise leadership.

In short, it seems as though we must retain him as our pastor. We dearly love him, and it seems as though many of the young people of our congregation, as yet without trust in the Saviour, would yield to his entreaties and give their lives to the service of God. There is need of yet more church extension and our pastor is most remarkably suited to inspire us to this work and lead us forward to success. Neither can the city afford to let him go; on every hand we hear expressions of regret at such a possibility.

Judging, therefore, from the success of the past, it seems from our point of view that he may have yet better success in the future still we leave the decision of the matter to our spirit-filled pastor and pledge ourselves in advance to accept his decision as the indication of God's will in the matter.

Eau Claire, Wis., Oct. 11, 1897. The church was crowded to the limit about 500 people being present. Mr. Kempton made a short address and said that he would make his final decision Thursday evening. There is said to be very little doubt that Mr. Kempton will accept the Janesville call.

BEYOND THE CARES OF LIFE

Miss Ellen A. Hickey.

Months of illness borne patiently, suffering borne without complaint, ended in rest for Miss Ellen A. Hickey at 1:10 o'clock this morning. Her death occurred at the home of her parents Mr. and Mrs. Michael Hickey, 257 Ringold street. She was conscious almost to the last and up to the last few hours held bravely to her belief that she would still recover. Miss Hickey has been a sufferer from stomach troubles for years. A surgical operation performed in Milwaukee promised relief but served only to prolong her life a few months. Miss Hickey was born in Connecticut and came to Janesville with her parents when a child.

She was for years a compositor in the Gazette office going from here to the Beloit Free Press and returning to the Gazette office about four years ago. Her native ability, quick mind and good judgment made her especially valued in newspaper work. Possessed of ready sympathies, constant in kindly thoughts and ever regardful of those about her she made friends wherever she was placed.

Besides her father and mother, four sisters and one brother survive her—Mrs. Thomas Dolan and Miss Mary Hickey of Milwaukee, Misses Kate C. and Sarah Hickey of this city and James F. Hickey of Milwaukee. Sincere sympathy will be extended by those who know how firm the ties binding the family to the departed one have always been.

Funeral services will be held Saturday morning at 9:30 o'clock in St. Mary's church.

SHOT PROPERTY MAN WITH PROPERTY GUN

REVOLVER USED BY AN OPERA SINGER.

Lewis Wilbur Quarreled With Thomas Butters and Used "General Boum's" Weapon to Emphasize His Remarks—Shooting in a Hotel Hallway At Midnight

William Butters and Lawrence Wilbur, members of the Calhoun Opera company, fought at the Hotel London last evening and Butters was shot with the property revolver of the company. The two men had been quarreling all the evening and came to blows in the dressing room during the performance. After the performance Butters, who is the property man of the company, and who had put the property revolver used by General Boum into his pocket instead of putting it in the trunk had words with Wilbur in front of the Hotel London. Officer McGinley tried to quiet them but failed and Wilbur went up stairs to bed. Butters and the electrician for the company followed a moment later. On the third floor they met Wilbur. There was a scuffle and the revolver fell out of Butters' hip pocket. Wilbur picked it up and tried to stand off the other two men. He pointed the gun at Butters, called out a warning and fired. The bullet entered Butters' right groin and ranged down toward the knee.

The wounded man stood as if dazed for a moment and was then supported by members of the company and carried into his room. Officer McGinley and J. H. Watson took Wilbur to jail. Butters will go to Chicago on the 7:20 train tonight to have the bullet removed from his leg. Members of the company persuaded him at the last moment not to submit himself to the X-ray examination in this city. He is married and has a wife and child in Chicago. He told a Gazette man today that the trouble last night arose over Wilbur's kicking Willie Baskett, one of the little colored boys.

After the shooting Wilbur got a very thorough punching from three members of the company. When a reporter called him to the grating at the jail today his face was swollen so he could hardly speak. He was penitent but said he shot Butters in self defence. Wilbur is twenty-three years old and has been with his father in the shoe business in St. Louis. He became stage struck and joined the Calhoun company three weeks ago and has been making trouble ever since. He was discharged from the company today, but the only complaint that will be made against him is for disorderly conduct. This was lodged by Chief Hogan, Butters refusing to make any complaint.

PRETTY OPERA WELL SUNG

"La Grande Duchess" Pleases a Large Audience—Applause For New Songs

The Calhoun Opera Company gave an excellent production of Offenbach's tuneful composition "La Grande Duchess," before a large audience last evening. The leading roles were in capable hands; the choruses were strong, and the scenic effects and costuming unusually good. The excellence of the mounting was emphasized by special lighting effects.

There are many melodious bits in "La Grande Duchess" and the opportunities were not lost. J. Aldrich Libbey, the well known ballad singer, appeared as "Private Fritz" and sang with fervor and fire. Edward Webb as "Prince Paul" delighted the audience by the expression and finish of his singing. He was especially happy in his rendition of "The Hamburg Journal."

Miss Adell Farrington as the Grand Duchess acted her part with spirit and gave a dramatic quality to her numbers that was fully appreciated by the audience. Miss Beatrice Mackenzie made a very acceptable "Warda."

Not the least appreciated parts of the production were the interpolations. Mr. Libbey introduced in the third act two new songs, "Marie Louise," and "The Old Man's Story." Both were received with loud applause. The two tiny darlings Cyclone and Rabbit Foot afforded another diversion by buck and wing dancing which would have surprised Herr Offenbach as much as it pleased the spectators.

THREE YEARS EACH FOR CAR ROBBERS

HUNT AND KING TAKEN TO WAUPUN.

King Declares His Innocence But is Unable to Impress the Court With His Argument—Hammars Horse Stealing Case Gets Its Second Hearing.

Frank Hunt and Edwin King got three years apiece today for stealing clothing from a Milwaukee & St. Paul freight car near Milou July 24.

When they stood before Judge Phelps at ten o'clock they had very little to say although King declared solemnly that he was not guilty. Hunt's oratory was interfered with by his broken jaw.

Sheriff Acheson brought the two men into court and Judge Phelps gave them some good advice along with the sentence. The sheriff started with his prisoners for Waupun at 12:30.

Alfred Austin the complainant was on the stand all forenoon, in the Hammars horse-stealing case. Henry Austin, Charles Hudson, Fred Damus, Jerry Crowley and Grant Austin were sworn this afternoon. The state is said to have new evidence in reserve. The jury is composed of Eugene Mitchell, John Little, George Turk, B. L. Gage, Charles Shoemaker, Edward Paul, E. W. Brooks, William Sawlson, Hiram Proctor, John Fletcher, Henry Brace and W. B. Bemis.

Women's Enlarged Sphere of Labor.

It is evident that women are pressing forward more and more into professions and positions formerly held exclusively by men. This, in our opinion, is an excellent sign, although in some branches of labor there is reason to regret it. What women more particularly require is a training from an early age which will enable them to take their own part in the battle of life when, through the death of those on whom they were dependent or through misfortune, it becomes incumbent upon them to provide for themselves. This early training is a matter which does not appear to receive the attention and consideration that it ought, for how many women are there who can, for example, compute interest intelligently and accurately? How many are there who are even capable of managing their own affairs or their own property, if they have any, with anything like business capacity? The education of woman is not complete unless she has as a part of her equipment a knowledge of at least the rudiments of business. Women who are blessed with a fair share of worldly goods need this knowledge hardly less than those who have to make their own way in the world, and who have not the protection and guardianship of husband and father, for such women can never be sure that they may not at any moment be called upon to earn their own livelihood.—New York Ledger.

Bicycling Servants Barred.

"The bicycle has put a premium on female servants," said the proprietor of an intelligence office in New York, "for now it is more difficult to get a good maidservant than it ever was before. People who come here to engage servants are particular in stating that they will pay high wages to a girl who does not ride a wheel. Like their sisters in other stations in life, the servant girls have taken to wheeling, and in doing so neglect their household duties. It's got so nowadays that some of them refuse to take situations where they are forbidden to go out wheeling. On the other hand, the women who want servants don't want bike servants. They say that the servants who ride wheels are so anxious to get out that they do their work too quickly, and hence badly, then dash away on their wheels and stay out until 1 o'clock in the morning. The result is that the girl is late in getting breakfast and dopy in waiting on the table. One woman came in here the other day and offered me \$50 as commission to get her a good servant who had not learned to ride, and many employers are willing to pay as high as \$50 a month for such a girl."—Exchange.

A New Lining.

A new material for skirts and dress linings, which is used very extensively in Paris by all the leading dressmakers, is called silkierin. This material, entirely new and of very pretty appearance, is an all silk article, well suited to the shape of dresses now worn. It maintains any soft material and does not give as much stiffness as some varieties of linings. With it there is no necessity to use any other silk lining. Although it is all silk, silkierin is much cheaper than other silk linings. It is very light, but substantial and elastic enough to sustain the dress. It cannot be torn and does not rumple or shrink. It is capable of being put to many uses other than lining. In Paris they make it up into very pretty underskirts. This material, which will be in this market very soon, will be used here, as it is in Paris, by every leading dressmaker in place of other linings, for the reason that it takes the place of both silk and haircloth.

For the October Bride.

This season white taffeta takes the lead for bridal gowns and has a very high satin finish. The trimmings are used as a softening effect and are made of chiffon of the same white tint in the form of soft gathered ruffles or full narrow ruffles. Sleeves of chiffon, made in mousquetaire style, reaching down well over the wrist, finish with a narrow ruche of the same. Fashion has made a departure, and now consents, though with much reluctance, to a very modestly low necked bodice, though the high necked waist is always considered in better taste for a bride, who is always expected to pose as a modest, unassuming maiden on her wedding day.

Veils are draped in Russian style from the crown of the head, held with flowers, having the short face veil, which is removed just after the marriage ceremony. Congratulations must never be offered until the short veil has been removed.—Woman's Home Companion.

Couch Pillows.

Everything warm and oriental looking is to be used for couch pillows this winter. Squares of turkish velvet, india silks of dark, rich colors and intricate design, pieces of old brocade flowered gorgeously and darkened by backgrounds of black, deep crimson or yellow, and even the heavy, woven rugs that are used usually for couch covers are used this year for cushions.

The furnishing shops sell odd pieces of upholstery goods of different sizes and in all colors that make beautiful pillows. Satin brocade with velvet flowers, stiff damask silk in wonderful colors and huge scattered designs, liberty velvets in soft aesthetic greens, sentimental pinks and clear blues and yellows, soft liberty silks embroidered with silver thread, india vegetable cloth, white and scarlet bandanna handkerchiefs and an endless array of linen and wool stuffs are all suitable for pillows for the divan.—Exchange.

Half a Century Ago.

In 1840, when the great Harriet Martineau came to this country, she found only seven paying occupations into which women had entered. They were allowed to teach, to sew, they could keep boarding houses and make hash, they were allowed to be factory operatives and to enter printing offices and become bookbinders by trade.

BUFFALO BILL.

A NOTED MAN'S OPINION ON A SUBJECT OF VITAL IMPORTANCE.

He speaks from experience. His life, his knowledge of the Indians and his unimpeachable integrity lend weight to his statements.

HON. WM. F. CODY.

If there is a man in America to-day, whose opinion of that which has to do with the Indians and their habits is of value, it is that of the Hon. Wm. F. Cody (Buffalo Bill). The years of his life spent with them as a government scout and his later life of success, combined with the respect and admiration felt for him by the entire world, make his words an unquestionable authority, on any thing to do with this subject.

When such a man as this, in times of sickness resorts to medicines and obtains relief by their use, that are of nature's own brewing, made by nature's own children—the Indians—from her all powerful roots, herbs and berries, as they themselves gather them, it would seem that the example he thus gives to the world should be followed and profited by.

Note what he says in his own words concerning the wonderful results to be obtained by the famous Kickapoo Indian Sagwa:—"I have known of its virtue for a long

time, and on the frontier this and the other Kickapoo Indian remedies are considered indispensable. I had occasion to use Kickapoo Indian Sagwa for malaria and chills with the best of results, it is far superior to quinine. I have also used Sagwa and Kickapoo Indian Oil for rheumatism and was speedily cured. You may use my name and say that for what they claim to do the Kickapoo Indian Remedies have no equal." Sufferers from these troubles, or in fact from any derangement caused by a disordered condition of the kidneys, liver, stomach or blood, follow this illustrious man's example, get well by a sure method. Where a cure is possible, a cure is certain and that too without danger, as these medicines contain no mineral or other poisonous ingredients. All druggists sell them. Kickapoo Indian Sagwa \$1 a bottle, 6 bottles for \$5. Kickapoo Indian Oil, 25c., Salve, 25c., Worm Killer, 25c., Cough Cure, 25c., Pills, 25c.

COUNSEL.

Anxious mother, bending low
O'er thy child now calmly sleeping,
Seek not its destiny to know.
Leave it in the Father's keeping!
Then do well the mother's part—
Gently training, gently leading—
Guide the restless, untired heart
With love's chiding, with love's pleading.

Never doubting, sow the seed,
Watch it budding into beauty.
Take out every useless weed
From the firm, straight path of duty.
Simple teaching, pure and plain,
Will its little life be molding
Into one bright golden chain,
Day by day for these unfolding.

Careful mother, turn aside,
Turn with tears of deep contrition
From the temptings of pride,
Tempting thee with earth's ambition.
Holier thoughts should now be thine,
Upward gaze toward heaven's portal.
Thy child must bow before this shrine—
Teach it to win a crown immortal!

ISFODEL CASTLE.

Many years have vanished from the face of the earth since the castle of Isfodel was first erected. The ravages of war have filled many a land with sorrow, and the angel of peace has often visited the world, bringing balm to the weary. Empires have arisen and, like the paling of a star, have disappeared from the firmament of time since that remote period.

At the time of our narrative Isfodel had undergone many changes since the days of its former possessors. It still, however, presented the same granitic appearance. The wild, wrathful ocean beat against the base of the cliff on which the castle stood, and dark and lonely appeared the great forest a few rods away. Lord Hilderbrand and many of his followers had passed away to the land of the soul.

Finally Isfodel fell into the possession of Lord Hurdron, an exceedingly unpopular man, of crabbed disposition and darkened reputation. He was domineering in his conduct toward those beneath him in social standing, and, added to this, he bore such a selfish spirit that he won the respect of only a few persons.

Very different in her nature was Lady Ella, the only daughter of Lord Hurdron. She possessed all those qualities and accomplishments that tend toward the development of true womanhood. She was greatly liked by all who knew her, and well did she merit the love that her friends bore her.

If there was one thing to which Lord Hurdron was violently opposed, it was that Lady Ella should marry a man who possessed not wealth and bore not the title of nobleman. She well knew her father's antipathy to her forming an intimacy with any of the lower class. Still this did not deter her from seeking the company of Roland Hilter, with whom she had fallen deeply in love. He possessed nothing in his nature that even Lord Hurdron could find fault against had not the latter such an austere and jealous disposition.

The knowledge of love meetings is sometimes difficult to keep from suspicious parents, and so it was in the case of Lady Ella and her lover. It was not long before Lord Hurdron became cognizant of the interviews between his daughter and Roland Hilter, and he immediately proposed to break the intimacy.

Early one morning, as he was passing through the dark forest of Athol, Lord Hurdron's attention was arrested by the sound of voices falling on his ear. Presently Lady Ella, accompanied by Roland Hilter, appeared in view. Not wishing to be observed by them, Lord Hurdron stepped behind a large tree to wait until they passed by.

"Dear Roland, let us sit down for a few moments," said Lady Ella in a sweet voice.

Lord Hurdron managed to restrain his temper and wait for further developments. He saw the young couple sit down under the umbrageous foliage of a large oak tree. He beheld the young man pass his arm tenderly around the waist of the fair girl, and he noticed that she did not attempt to resist this act of familiarity.

"Dear Ella," said Roland, "let us leave this country and fly to some foreign land, where our marriage can take place unhindered by your people, for you know that were your father to learn of our betrothal he would spurn me from these premises as he would a reptile."

"Dear Roland," replied Lady Ella, "wherever you go there will I bear you company. What is the love I entertain for my people compared with the deep affection that has chained our hearts together?"

"Then this evening at the red room await my coming." And as Roland uttered these words he arose from his seat and together they walked away.

As Lord Hurdron heard these words he inwardly cursed the soul of Roland Hilter. He waited until the young lovers had gone some distance, when he emerged from his place of concealment and quietly wended his way toward the castle. On his way he met one of his servants, to whom he spoke a few words. The man's face slightly changed color as his master's voice fell on his ears.

"A thousand pounds, Rupert, if you perform the deed," said Lord Hurdron, as he departed.

"I understand, my lord." And the man walked away.

Roland Hilter lived a mile from the castle of Isfodel, and it was his favorite pastime to wander along the high bank that bordered the ocean and listen to the beating of the waves below. Rarely a day passed but that he spent a portion of his time there.

On the afternoon following the events just narrated Roland was walking leisurely along the bank, gazing on the blue waters, when a voice fell on his ear.

"A bad place for a man to fall from."

"Ah, is it you, Rupert?" said Roland,

as he turned around. "Yes, it is, as you say, a bad place. The best swimmer, I warrant, could not live in such a sea."

"Yet his cries would probably reach the castle."

"I fear not. The sound of the waves would drown them."

The eyes of Rupert glittered with a dangerous light as he heard these words. "Do you think the edge of the bank is firm?" he asked. "Would there not be danger of its crumbling if one should stand close to the brink?"

"None in the least. I have stood many times within an inch of the edge and felt no danger whatever. Sea."

As Roland spoke he stepped forward, and presently only a small space intervened between him and the side of the precipice. Ere he had time to return he felt himself being pushed over the cliff. Impulsively he stretched forth his hand and grasped Rupert, his assailant, by the arm. The latter struggled to free himself, but in vain, and a moment afterward the pitiless ocean received them in its depths.

That evening Lady Ella waited long for the appearance of Roland, but he did not come. She knew not that, tossed here and there by the angry waves, his lifeless form was in the ocean.

The next day, as she was walking along the edge of the cliff, her mind full of strange forebodings, the upturned face of her dead lover met her vision. Her head swam, and she toppled over the cliff. As she fell the ocean clasped her in its embrace, and the gates of death were thrown open to receive another soul.

That night Lord Hurdron retired to the red room. The nonappearance of Lady Ella did not seem to affect him. As he sat down his thoughts reverted to the past.

"Ha!" he muttered. "That young scamp, Hilter, will no longer trouble these regions. It!"

"Think so, father?" interrupted a sepulchral voice at his side.

Lord Hurdron turned his eyes to whence came the voice. As he did so he beheld the dripping apparition of Lady Ella leaning on her lover's arm.

"By my troth!" cried the astonished lord. "So you have returned, you base scoundrel! Death be upon you!"

As he spoke he drew a pistol and fired at the spectral form. When the smoke cleared away, no one save Lord Hurdron remained in the room.

For a moment he hardly stirred. Then his head dropped on his breast, and his eyes put on a glazed appearance. When the servants entered, only the dead body of Lord Hurdron remained in the room.

The physicians pronounced his death as the result of heart disease, but they knew not what was the rightful cause. The bodies of Rupert, Roland Hilter and Lady Ella were never recovered. The sea refused them to mortal man.

For years the red room of Isfodel castle was haunted. It is said that the pale form of Lady Ella often appeared at the window, as if in waiting for some one. The castle has long since been destroyed, but the strange story connected with it is still fresh in the minds of many persons in England.—Exchange.

Few men in this country are better or more favorably known to the drug and medicine trade than Mr. E. J. Schall, buyer in proprietary medicine department of the Meyer Bros. Drug Co., St. Louis. He says: "My boy came home from school with his hand badly lacerated and bleeding, and suffering great pain. I dressed the wound and applied Chamberlain's Pain Balm, freely; all pain ceased, and in a remarkably short time, it healed without leaving a scar. For wounds, sprains, swellings and rheumatism, I know of no medicine or prescription equal to it. I consider it a household necessity." Sold by C. D. Truthful Tommy.
"Tommy," said a father to his first-born, "have you been at those six apples I put in the cupboard?"

"Father," said Tommy, looking into his eyes, "I have not touched one."

"Then how is it that your mother found five apple cores in your bedroom, and there is only one left on the plate?"

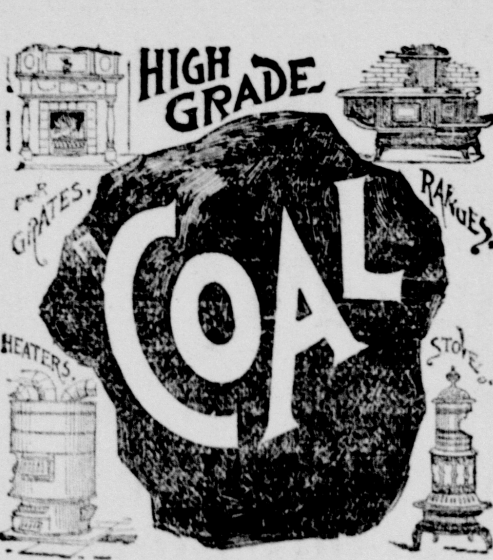

"That," said Tommy, as he dashed wildly for the door, "is the one I didn't touch."—Spare Moments.
